Sharing, Promotion and Use of the Project's Results

You are requested to make plans for the sharing and promotion of your project results. Please provide answers to the questions below.

What will be the target groups of your sharing and promotion activities inside and outside your partnership? Please define in particular your target audience(s) at local/regional/national/European/international level and motivate your choice.

Which activities will you and your partner carry out in order to share the results of your project beyond your partnership?

Who will be responsible for the sharing and promotion activities within your partnership and which specific expertise do they have in this area? What resources will you make available to allow for the proper implementation of your sharing and promotion plans?

Erasmus+ has an open access requirement for all materials developed through its projects. If your project is producing tangible project results, please describe how you intend to ensure free access for the public to a digital form of this material. If you intend to put any limitation on the use of the open licence, please specify the reasons, extent and nature of this limitation.

How will you ensure that the project results will remain available and will be used by others?

If relevant, please provide any other information you consider appropriate to give a full understanding of your sharing and promotion plan and its expected impact (e.g. how you have identified which results are most relevant to share and promote; how you will ensure the involvement of all partners; how you see synergies with other stakeholders, etc.)

Sustainability

What are the activities and results that will be maintained after the end of the EU funding, and how will you ensure the resources needed to sustain them?
